Introduction: A Few Words About			
My Background	1	Identify Plant Requirements	58
What Is the Market Gardener Method?	4	Diagnosing Problems	59
Preface: Healthy Soil, Healthy Vegetables	8	Nutrient Deficiencies	61
The Living Soil	9	WORK AND IMPROVE YOUR SOIL	66
WHAT IS A LIVING SOIL?	14	Prepare Your Soil	68
What Are Soils Made Up Of?	16	Tillage	69
Soil Layers	17	Bio-Tillage	72
Soil Evolution	19	Organize Your Garden Plots	74
Soil Composition	21	Protect Your Soil	78
Soil Mineral Content	22	Organic Mulch	79
Particle Size	23	Occultation (Tarping)	83
Texture	26	Solarization	86
Soil Colloids	27	Feed and Improve Your Soil	88
The Texture Triangle	28	Cover Crops	89
Soil Organic Matter	30	Compost	94
Soil Biodiversity	31	Crop Rotation	100
Humus: Stabilized Organic Matter	36	Acknowledgments	104
UNDERSTANDING YOUR SOIL	40	About New Society Publishers	104
Field Tests and At-Home Experiments	42		
Estimate Soil Fertility	43		
Determine Soil Texture	45		
Analyze Particle Size Distribution	48		
Assess Soil Structure	50		
Measure Soil Biological Activity	52		
Test Soil pH	54		
Lab Tests	56
